Rich May client Leostream Corporation receives Emmy Award

By: Rich May

Rich May congratulates its client, Leostream Corporation (www.leostream.com), on being awarded an Emmy by the Television Academy at the 74th Engineering, Science & Technology Emmy® Awards for its remote access and desktop connection management software. Leostream's industry leading enterprise-grade remote access solutions are used by major news, media and entertainment organizations to create secure, remote production environments. The Engineering, Science & Technology Emmy Awards ceremony was held on September 28, 2022. Rich May represents Leostream in the negotiation of complex licensing transactions and employment matters.
