

Energy, Renewables & Regulated Industries

OVERVIEW

For over 80 years, Rich May, P.C. has been a leader in advising utilities, energy generators, competitive suppliers, renewable energy companies, telecoms and consumers of utility services in all aspects of their business and operations.

Drawing from this deep experience, Rich May has gained significant expertise with virtually every form of energy (fossil and renewable sources) and water project and related contractual and financing arrangements. The Energy, Renewables and Regulated Industries Practice Group is also noted for its exceptional knowledge and practical experience with all aspects of regulation including siting and ratemaking, as well as its vital legal and strategic counsel in all aspects with the regulatory processes.

Rich May's attorneys have significant experience in electric, natural gas and water proceedings conducted by regulatory authorities in Massachusetts, Connecticut, New York, New Hampshire, Maine and Rhode Island. We are familiar with and have been involved in regulatory matters before many other utilities commissions across the country, as well. Rich May also is actively advising renewable energy developers, including among others, developers of solar and wind generating facilities and technology, energy conservation efforts and technologies.

We also represent investors and customers purchasing renewable energy and developing renewable energy resources, and, among other things, project development, structure innovative joint venture arrangements (among and between both utility companies and new market entrants), and counsel on energy supply (retail and wholesale) arrangements.

EXPERIENCE

- Represented a multi-national entity in all aspects of its business from financing to developing solar generation in India and other emerging
