

Clean Tech

OVERVIEW

Through its long-term and deep experience in the energy and the emerging company areas, Rich May, P.C. has developed an active Clean Technology practice.

Rich May assists clients in the standard start-up activities from entity choice and formation, to financing, to technology licensing and ultimately company sale. Our deep knowledge of the energy industries and markets, the relevant regulatory environment, and at a high level, the engineering and economics relating to electric generation and transmission, allows us to provide invaluable counsel to entrepreneurs.

EXPERIENCE

- Represented seller of wind measurement technology to top five wind turbine manufacturers.
- Represented entrepreneur in a variety of licensing and financing arrangements for development of a deep water floating wind turbine platform.
- Represented entrepreneurs in start-up and contract matters for small hydro, bio-fuel, electric vehicle refueling stations, and a variety of other novel generation technologies.
- Represented investors of energy monitoring system in the licensing of their technology to an identified Fortune 500 firm.
